

# TITLE OF PAPER

First Author<sup>1</sup>, Second Author<sup>2</sup>, Third Author<sup>3</sup>

1 Address of first author, affiliation, and email address

2 Same for second author

3 Same for subsequent authors

## ABSTRACT

This document explains how to prepare a paper for the TENTH INTERNATIONAL SCIENTIFIC AND TECHNICAL CONFERENCE INNOVATIONS IN FOREST INDUSTRY AND ENGINEERING DESIGN 2020. Please read the instructions carefully, they are formatted according to the guidelines and can be used as a template. If possible, please prepare your manuscript using 'MS Word' word processing software. You may submit the document using the following e-mail: inno\_conference@ltu.bg. The deadline is 30.06.2020. All pictures, tables, and figures should be embedded in the text and centred. Top, bottom, left and right margins are 2.5 cm. Do not place any text outside of this area. Do not include page numbers, they will be added later. Do not include headers and footers.

**Key words:** List the keywords (3 to 5).

## INTRODUCTION

All manuscripts should be in English. The full text of papers should be up to 10 pages (including illustrations), A4. Metric units (SI) should be used. It is assumed that the corresponding authors grant us copyright to use the manuscript in the proceedings. Should the authors use tables or figures from other publications, it is assumed that permission has been obtained to do so. To emphasize a word or a phrase, use *italics*, only use capitals or bold for the section headings.

## STRUCTURE OF TEXT

Following the introduction, if appropriate to the content of the paper, please follow the following structure: INTRODUCTION, EXPERIMENTAL METHODS, RESULTS AND DISCUSSION, CONCLUSIONS, and REFERENCES. All text styles are set in this document, normal (body) text is 12 pt. Times New Roman. Main section headings are bold, left justified and capitalised. Second level headings are left justified and capitalised. Third level headings are left justified, bold and lower case. Fourth level heading are left justified and lower case. See example bellow.

*Example:*

### **1 MAIN SECTION HEADING**

This is main section heading.

#### **1.1 SECOND LEVEL HEADING**

This is a second level heading.

##### **1.1.1 Third level heading**

This is a third level heading.

#### 1.1.1.1 Fourth level heading

This is fourth level heading

### TABLES

These should be included in the text. A descriptive title should be given above the table in 10 pt. Times New Roman. Units should be given in square brackets. An example is given below (Table 1).

*Example:*

Table 1: Results of test

Specimen	Length [m]	Width [m]	Height [m]	Weight [kg]
1	1	1	1	1
2	2	2	2	2
3	3	3	3	3
4	4	4	4	4

### FIGURES

Figures should be referred to in text as Fig. 1, or as (Fig. 1) and should be presented as part of the text. A descriptive title should be given below the figure in Times New Roman 10 pt.

*Example:*

Figure 1. Image of blended particles at fluorescent light source

### EQUATIONS

Equations should be referred to in the text as Eq. 1 (or Eq. 1) and should be indented five mm. The equations should be numbered sequentially, with the number in brackets on the right hand side of the page.

*Example:*

$$a^2 = b^2 + c^2 \quad (1)$$

## REFERENCES

All references should contain enough information to allow a reader to find the cited materials. Do not abbreviate journal titles. Cite references in the text using the author's last name and date of publication as follows (Murphy 1990, Jones and Smith 1989, Davis *et al.* 1999). List the citations at the end of the manuscript in alphabetical order (examples are given below). The second line of a reference should be 0.7 mm indented (hanging).

*Example:*

Buschbeck L., Kehr E., Jensen U. 1961a. Untersuchungen über die Eignung verschiedener Holzarten und Sortimente zur Herstellung von Spanplatten – 1. Mitteilung: Rotbuche und Kiefer. *Holztechnologie*, 2, 2: 99–110.

Kollmann F., Kuenzi W. E., Stamm J. A. 1975. *Principles of Wood Science and Technology – Volume II: Wood Based Materials*. Berlin, Heidelberg, New York, Tokyo, Springer-Verlag: 312–550.

Xu W., Suchsland O. 1998. Variability of particleboard properties from single- and mixed-species processes. *Forest Products Journal*, 48, 9: 68–74.
